

**REMARKS**

Reconsideration and allowance of the subject application in view of the foregoing amendments and the following remarks is respectfully requested. This Amendment should be entered because it places this application in condition for allowance.

Claims 1-20 remain pending in the application.

Applicant appreciatively notes that claims 1-9 and 11-20 are allowed and claim 10 is objected to because it lacks a clear antecedent basis. Applicant has amended claim 10 to more clearly define the phrase "the solid parts". This is supported in the specification on page 7, lines 33 and 34. Accordingly, this objection should be withdrawn.

The drawings are objected to as failing to comply with 37 CFR §1.84(p)(5) and PCT Rule 11.13(I) because they do not include the reference sign "31". The reference sign 31 is found in Figure 4 between reference signs 30 and 28. Thus, the reference sign 31 is shown and this objection should be withdrawn.

The specification has been objected to because of informalities. Applicant has amended the specification and this objection should be withdrawn.

All objections having been addressed, it is respectfully submitted that the application is in condition for allowance and a Notice to that effect is earnestly solicited.

To the extent necessary, a petition for an extension of time under 37 C.F.R. 1.136 is hereby made. Please charge any shortage in fees due in connection with the filing of this paper, including extension of time fees, to Deposit Account 07-1337 and please credit any excess fees to such deposit account.

Respectfully submitted,
